Roll:2010019

Task : Basic documentation using Markdown language.

Objectives:

- To learn and apply the basic syntax of Markdown to format text elements.
- Practice using Markdown to document code snippets, making it easier to share and explain code in a visually organized format.
- Developing skills to create structured and readable documents with clear section.
- Familiarize with tools and platforms that support Markdown, such as GitHub, VS Code.

Documentation:

Some common features of Markdown:

****1.Heading****

****2.Text Formatting****

****3.Lists****

****4.Links and Images****

****5.Code Blocks****

1.Heading:

Heading Level 1

Heading Level 2

Heading Level 3

2.Text Formatting:

****Bold Text****

Italicized Text

~~Strikethrough~~

3.Lists:

Unordered list:

- Item 1

- Item 2

- Item 3

Ordered List:

1. Step 1

2. Step 2

3. Step 3

4. Links and Images

Links:

[Click here Google!](<https://www.google.com/>)

Images:

![image of markdown](<https://belenos.me/media/2021-02-markdown-logo.webp>)

5. Code Blocks

```
...
```

```
    int i = 0
```

```
    i = i + 5
```

```
...
```

Output:

Heading

Text Formatting

Lists

Links and Images

Code Blocks

Heading level 1

Heading level 2

Heading Level 3

Bold Text

Italicized Text

~~Strikethrough hi~~

- Item 1
- Item 2
- Item 3

1. Step 1
2. Step 2
3. Step 3

This is a link

```
int i =0  
i = i+5
```
